

National Democratic Front of the Philippines

The National Democratic Front Congratulates Masar Badil Conference

The National Democratic Front of the Philippines commends, supports and congratulates the organizers and participants of the Masar Badil – Palestinian Path Conference (Towards a new revolutionary commitment).

Holding your conference in Madrid, Spain this Oct 30 – November 1, 2021, is a fitting expression of the Palestinian people's rejection of the Madrid Peace Conference which was conducted at the end of October 1991.

The Madrid Peace Conference marked a turning point in the Palestinian people's struggle against US imperialism and Zionist Israel and resulted in great decline and retreat of the Palestinian and Arab people's revolutionary cause.

It marked the change and comprehensive break in what was once known as the “three no's” of No Negotiation. No reconciliation. No Recognition.

It was advantageous to the interests of US imperialism especially as the United States was preparing to dominate a unipolar world after the first Gulf War and the disintegration of the Soviet Union and the socialist camp, and the consequent fundamental changes in the balance of power at all levels, international, Arab and Palestinian.

Today, thirty years later, it is the current Palestinian generation that assumes the responsibility to continue the struggle and carry the Palestinian flag onwards to victory. We support all your efforts to liberate Palestine and defeat Zionist occupation.

The National Democratic Front of the Philippines has always been in solidarity with the struggle of the Palestinian people. Let us join hands as we struggle to liberate ourselves from the clutches of US imperialism, overthrow the oppressive and exploitative ruling system, and carry forward with determination our struggle for national and social liberation.

We wish you great success as you discuss and plan new activities and programs to build the Alternative Palestinian Path.

Long live Palestine and the Palestinian people!
Long live the revolutionary struggles of the Palestinian people and Filipino people!
Long live international solidarity!

Luis Jalandoni
Chief International Representative
